## **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance:

2. The base claims of the application are claims 1, 28 and 29. They can be summarized as follows:

Claim 1 covers a method for making an extruded thin-walled article comprising:

- -providing a polymer binder system comprising a substantially homogeneous solution of the thermoplastic elastomer binder and an organic solvent that is a liquid at room temperature and is a solvent for the glassy segment in the elastomer binder,
  - -adding a ceramic or metal powder to the binder system to make a mixture,
  - -evaporating the solvent from the mixture, and
  - -extruding the remainder from a die to make the article.

Claim 28 covers a method for making an extruded thin-walled article comprising:

- -providing a polymer binder system comprising a substantially homogeneous solution of the thermoplastic elastomer binder and an organic solvent that is a liquid at room temperature and is a solvent for the glassy segment in the elastomer binder,
- -adding a ceramic or metal powder to the binder system to make a mixture at a temperature of about 50°C,
  - -evaporating the solvent from the mixture, and
  - -extruding the remainder from a die to make the article.

Claim 29 covers a method for making an extruded thin-walled article comprising:

- -providing a polymer binder system comprising a substantially homogeneous solution of the thermoplastic elastomer binder and an organic solvent that is a liquid at room temperature and is a solvent for the glassy segment in the elastomer binder,
- -adding a ceramic or metal powder to the binder system to make a mixture wherein the solvent reduces the viscosity of the binder system to allow mixing of the binder and the powder at temperatures below 100°C,
  - -evaporating the solvent from the mixture, and
  - -extruding the remainder from a die to make the article.

Application/Control Number: 09/683,031

**Art Unit: 1772** 

Page 3

3. The prior art of record fails to teach or suggest methods having all of the features

of claims 1, 28 or 29.

4. Any comments considered necessary by applicant must be submitted no later

than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on

Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication should be addressed to Sandra M.

Nolan, at telephone number 571/272-1495. She can normally be reached Monday

through Thursday, from 6:30 am to 4:00 pm, Eastern Time. If attempts to reach the

examiner are unsuccessful, her supervisor, Harold Pyon, can be reached at 571/272-

1498. The fax number for patent application documents is 703/872-9306.
